

Samsung Multifunction

SMART MultiXpress K3300 Series

Performance and savings you need
Reliability you can trust

BACKGROUND

The A3 mono printer market is maintaining strong performance, primarily in the number of units sold in the 21 - 30 ppm segment. As main vertical markets in this segment, education, insurance and retail SMBs require smart printers that can keep pace with the speed of business. These SMBs require easy-to-use, cost-effective printers with fast, high-quality printing and scanning to maintain their competitive edge. Quick diagnostics and servicing are also critical to ensure low total cost of ownership (TCO), easy troubleshooting and better business agility.

OVERVIEW

Samsung's K3300 Series A3 mono multifunction printer (MFP) delivers exceptional business performance, reliability and savings for SMBs. Its fast 1 GHz dual-core processor, high scan speed and superior graphic quality keep you business ready. And its 7" capacitive touchscreen (TSP) and Active NFC make printing smarter and easier, both in the office and on the go. It also features robust security and industry-leading monthly duty cycle for top-notch reliability, plus the performance of Samsung MultiXpress MX4 but at a lower cost.

For dealers, K3300 Series offers an ideal business model. NFC Pro helps you effectively support your customers' business mobility performance and Bring Your Own Device (BYOD) needs with anywhere mobile printing. You can also quickly respond to your customers' service requests using the Samsung Smart Printer Diagnostic System (SPDS) application to maintain reliable print operations. Most importantly, K3300 Series shares service parts with MX4 to help lower your management and maintenance costs.

KEY BENEFITS

Print faster with high quality

Samsung K3300 series offers faster and high quality printing:

- 1 GHz dual-core processor, 1.5 GB of memory and fast scan speed for high productivity
- Rendering Engine for Clean Page (ReCP) for sharp images

Print smarter and faster on the go with top wireless technologies

Samsung K3300 series offers smarter printing on the go:

- 7" capacitive touchscreen for intuitive, smartphone-like usability
- Active NFC for easy identification and print-on-tap via smartphone
- 802.11 b/g/n wireless option for high-speed mobile printing
- Convenient mobile printing without a printer driver using solutions such as Google Cloud Print, AirPrint, Mopria and Samsung Cloud Print™

Stay worry-free from failure, security risk and downtime

Samsung K3300 series offers hassle-free reliability to keep your business up and running with:

- Samsung SPDS app, providing easy on-site printer servicing by users or service engineers
- Industry-best monthly duty cycle of up to 80,000 pages
- Multilayered, enterprise-level print security, including HDD overwrite and data encryption

Feature	Description
Authentication	Supports authentication through 802.1x, Simple Mail Transfer Protocol (SMTP), Lightweight Direct Access Protocol (LDAP) and Kerberos technologies, along with network use authentication at the control panel
Access Control	Enables administrators to lock/disable the control panel and restrict direct printing, access to the address book and the USB port
Job Protection	Protects print jobs with secure print, encrypted scanning, digital signatures and job logs
Network Security / Protocols	Secures company network and protocols through protocol and port disablement, IP and MAC address filtering, Secure Sockets Layer (SSL), Transport Layer Security (TLS) and other network security technologies
Hard Disk Protection	Safeguards the hard disk with encryption and overwrite capabilities

Cut operational costs with shared options and parts

K3300 series offer several cost-saving features to help you stay on budget, including:

- High performance and quality of Samsung MultiXpress K4350 series but at a lower price point
- Shared K4350 series options and service parts, such as Inner Finisher, Punch Kit, Fax, Dual Cassette Feeder, Stand, Wireless/NFC, Developer Unit (Mono), Tray and Roller, etc.
